## Definition

Social media refers to digital platforms and applications that enable users to create, share and interact with content and each other. These platforms facilitate communication, collaboration and the exchange of information among individuals and communities. Social media can include various forms of content such as text, images, videos and live broadcast. Social media plays an instrumental role in modern communication, marketing, news dissemination and social interaction.

## Purpose

To establish policy that provides guiding principles for the effective use of public-facing social networking sites, multi-media sites, blogs, etc., for the Ancient Egyptian Arabic Order Nobles Mystic Shrine of North and South America and Its Jurisdictions, Incorporated (A.E.A.O.N.M.S.). Furthermore, to establish an online participation policy that ensures a respectful and relevant presence that protects our rapport with the American public and abroad, as well as the brand of the organization.

## Applicability

This policy applies to Temples/Courts, Deserts/Oasis, Nobles/Daughters and individuals who have administrative rights to post content on A.E.A.O.N.M.S. official social media pages. While members affiliated with the many Temples/Courts throughout the Domain are welcome to participate in social media, we expect everyone who participates in the online space to understand and to follow these simple but important guiding principles. **\* It is required that all social media sites adhere to Social Media Policy standards\*.**

## Guiding Principles

**Obtain Approval for Social Media Presence:** The Imperial Media Relations Department has the authority to approve/disapprove the establishment of any official pages/groups, with the approval of the Imperial Council/Court Divan, which includes social media sites.

All media forms must be submitted for approval to IMR via <https://forms.aceaonms.org/imperial/graphic-approval> regardless of logo usage. Temples and Courts Names are the property of A.E.A.O.N.M.S., Inc.

**Designate Group Administrator(s):** A.E.A.O.N.M.S. members should designate administrator(s) for official public-facing social media pages. At a minimum, page administrator(s) assume responsibility for maintaining pages by means of implementing branding, posting content, monitoring user feedback, and responding to users. The frequency of posts and engagement should be determined by page administrator(s) based on resources. Administrator(s) also reserve the authority to provide administrative access to other users, if necessary. In addition, the administrator(s) must provide all usernames and passwords for all social media pages to the Illustrious Potentate/Commandress and Deputy of/for the Oasis; unless said page is specific to a specific classification (i.e. Desert Daughters only), in which case the usernames and passwords should be provided to the most senior officer in the group. Upon request, access to administrator rights will be provided to Imperial Media Relations Department appointees.

# The Imperial Council

Organized June 10, 1893; Incorporated November 10, 1901, Washington, D.C.

**“No Cross, No Crown.”**

*Proverbs 1:7-The fear of the LORD is the beginning of knowledge: but fools despise wisdom and instruction.*

**Facebook Pages vs. Groups:** Facebook Pages are the business type of Facebook profile for organizations. Their purpose is to connect with their internal audience/community. Facebook Groups are intended to be a community centered on a common interest. The purpose of a Facebook group is to offer a way for people to interact with one another and network. Due to Facebook settings, Imperial Media Relations Department can only post to Facebook Groups. All Temples/Courts are encouraged to create an accompanying Facebook Group if there is currently only a Facebook Page, as there will be no traffic from the Imperial Media Relations Department.

**Content Approval:** Release authority is a critical component of maintaining official social media pages. Administrator(s) should establish a method to ensure thorough content review before posting – being mindful of operations, documents, pictures, etc. Content that should NOT be posted on official pages include but is not limited to: Other than authorized releases, information regarding events or incidents currently under investigation, and/or content slurring the brand of A.E.A.O.N.M.S. While social media use is touted as a means of being transparent, security is paramount when it comes to sharing information using online platforms. Any information that may compromise operations security, and/or was not intended for public distribution (internal use only), should not be discussed on social media pages maintained by A.E.A.O.N.M.S. Page administrator(s) should monitor pages for any potential violations of this policy and follow the proper course of action: screen capture and delete content, report violations to the Temple/Court’s leadership, report the violation to Imperial Media Relations, and educate social media users on what constitutes appropriate posts.

## Temple and Court Content Approval

For clarification, final approval of content being released by Temples/Courts belongs to the Illustrious Potentate/Commandress (or their designees) as the offices of the same hold primarily responsibility for the actions of the Temple/Court.

Deputies of/for the Oasis are only allowed input if the content in question violates this policy, or any rules of the Imperial Council/Court. Deputies shall be included in the review process for visibility and information only. Deputies of/for the Desert are only to be included if this is sponsored by the by Desert and they are the final approver of the content.

It is the sole responsibility of the Illustrious Potentate/Commandress to remain up to date on the current social media policy, as any violation will result in corrective actions to the same, AND NOT to their designees.

In addition, any information or media from Temples/Courts, Deserts, or Departments for dissemination to the Domain (including podcasts/webinars, broadcasts, interviews, media of any sort, flyers, etc.), you are to forward them to Imperial Media Relation for review via <https://forms.aceaonms.org/imperial/graphic-approval>, regardless of logo usage, prior to distribution. These requests, along with elected Imperial Officer Souvenir Journal ad requests (<https://forms.aceaonms.org/imperial/ad-request>), must be submitted to Imperial Media Relations no less than 72 hours in advance.

**Compliance with Established Regulations and Policy:** To the extent that resources are available, ensure social media use complies with applicable mandates from the Imperial Council. This includes that no content distributed is to be deemed OFFICIAL unless first released by Imperial Media Relations.

**“No Cross, No Crown.”**

*Proverbs 1:7-The fear of the LORD is the beginning of knowledge: but fools despise wisdom and instruction.*

**Moderate Pages:** All discussion boards and comments should be closely monitored by page administrator(s), but care should be taken to not over moderate pages and online exchanges between users. Allow users connected to your pages to advocate on your behalf, when possible. They are, by virtue of their nature, not the official (domain) responders and, as such, carry with them a different level of credibility.

**Addressing Negative Comments:** Do not stray from negative comments. An open forum comes with a certain risk of negativity, and to shy from it will potentially tarnish credibility. However, responses must be vetted/approved, and accurately express official A.E.A.O.N.M.S. doctrine without editorializing, or straying, from the facts. Only delete comments or block users when a clear pattern of malicious and/or derogatory behavior is apparent, and they are in violation of the terms of participation. Be mindful of copyrights, trademarks, ongoing litigation, and personal information. Social media posts and content must respect copyright, privacy, fair use, financial disclosure, and other applicable laws. Always give proper credit/citation for other’s work, and make sure you have the right to use something with attribution before publishing online.

It's important to be aware that saying inappropriate or offensive things on social media can lead to serious consequences, including being banned from platforms, damaging your reputation, or facing legal issues. Here are some examples of things to avoid:

1. **Hate Speech:** Any language that discriminates against or targets individuals based on race, gender, sexual orientation, or religion.
2. **Harassment:** Threatening or stalking individuals online can lead to serious repercussions.
3. **Personal Attacks:** Insulting someone personally, especially in a public forum, can escalate conflicts and lead to consequences.
4. **Misinformation:** Spreading false information, particularly about serious issues, can lead to public harm and legal action.

**Graphic Content:** Sharing violent or sexually explicit content is often against community guidelines and can result in bans.

## Sharing of Confidential Information

Do not publish, report, or share communications that are intended to be pre-decisional, internal, or confidential in nature to A.E.A.O.N.M.S. As a standard practice, it is prohibited to comment or share anything related to legal matters, litigation, or any matters that parties of the A.E.A.O.N.M.S. maybe in litigation with. Items disseminated privately by the Imperial Council/Court via MemberSuite, the A.E.A.O.N.M.S. App, or similar platforms should not be shared on social media. Those who violate this instruction and/or share will be subject to disciplinary action by the Imperial Council or Imperial Court. Lastly, always protect sensitive information, such as protected acquisition and personally identifiable information.

## Registration of Official Pages

All official A.E.A.O.N.M.S. social media pages should be registered by submitting links and contact information via the A.E.A.O.N.M.S. Imperial Media Relations Department ([pr@aeonms.org](mailto:pr@aeonms.org)). The Imperial Media Relations Department will review each individual submission and publish sites that adhere to the established guidelines of the official A.E.A.O.N.M.S. (if applicable).

1. Compliance: For clarity, posts will remain under local administrator(s) control. The monitoring of content, knowledge of the current media policy, updates to the media policy, giving authorization to an Imperial Media Relations representative (upon request), and updating changes in administrator(s) are all the responsibility of the same. Registering of the page is not intended for Imperial Media Relations to “police” or gain control of the page; but only to ensure that authorized global releases by the Imperial Council are disseminated throughout the Domain in a timely matter. Otherwise, Imperial Media Relations will not interfere in the administration of the page unless a violation of this policy is reported or detected. The primary objective of Imperial Media Relations is to ensure that official Imperial Council releases are disseminated throughout the Domain in real time.
